

Controlling a four-door freezer case with a Door Miser will have the same annual environmental benefit in terms of CO₂ reduction from energy savings as planting three acres of trees or not driving a car 7,200 miles.

Door Miser[®] REBATE PROGRAM

Want a partnership that pays?

As you know, the easiest way to save electricity and money is to turn off equipment when it isn't needed. What if your unneeded equipment could be turned off automatically, making it even easier for you to save? Door Misers do just that!

commercial & industrial

Refrigerated glass display cases like those found in grocery and convenience stores contain heaters to prevent moisture from forming on their glass and frames. Heat strips on the door edges warm the glass to ensure a clear view of the displayed products. Uncontrolled anti-sweat heaters typically operate continuously, yet they are needed only a fraction of the time. The Door Miser anti-sweat control system saves you energy and money by activating the heat strips only when the formation of condensation is detected.

By installing a Door Miser, you can:

- **Get cash back** - as your local utility, we offer rebates for Door Misers
- **Save money** - typically 70-90% of your anti-sweat heating costs
- **Save electricity** - refrigerated glass display cases operate more efficiently, reducing demand and energy consumption
- **Get fast payback** - return on investment in as little as one year

Do you qualify?

All business customers we serve are eligible for rebates. Applicant must be the end-user of the Door Miser. The Door Miser must:

- Be installed on anti-sweat heaters in freezer and cooler glass display doors
- Include a two-year warranty from the manufacturer

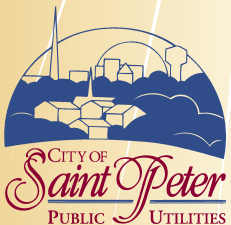

How do you participate?

Just follow these easy steps:

1. Contact Supermarket Energy Technologies at 763.682.3809 to request a proposal.
2. Complete the Door Miser Rebate application.
3. Send your completed application to us for approval before ordering the Door Miser.
4. After your Door Miser is installed, submit the invoices to us and we will inspect it before issuing your rebate check.

Rebate funds may be limited, so please contact us to confirm availability. **Additional guidelines can be found in the terms and conditions on the back of the Door Miser Rebate application.**
